Denver Cloud - 1st Place Winner

PHILANTHROPY & COMMUNITY INVOLEVMENT

Skinner Middle School | Denver, Colorado
- Led an Americorps six-week volunteer introduction to coding class
- Primary volunteer responsible for lesson planning and coordinating

Dreams To Reality | Cape Town, South Africa
- Six-week volunteer program working with underprivileged children of SA
- Education and sports development at Christian David Primary School

PROJECTS

My Portfolio Site - julesperryman.io
React / AWS / JavaScript / CSS3 / Node.js

Personal website showcasing my various projects and full stack web development applications.

Independent Showings [Capstone Project]
React / Mongo DB/ AWS / Redux / Node.js / Express

A full stack application that enables home buyers to schedule and preview active Real Estate listings without a licensed agent. Eliminates cumbersome and inefficient process of scheduling and coordinating showings.

JDesktop - Google Chrome Desktop Extension
HTML5 / CSS3 / JavaScript / AJAX/ jQuery

Google Chrome desktop extension that provides users with a more dynamic and functional home page and new tab with local storage, to do list, weather API's, CNN News feeds and more!

Go Fly A Kite
HTML5 / CSS3 / JavaScript / Node.js

A visually entertaining web application that displays wind speed and weather data from Google Maps input through an animated flying kite. Won Best Visuals at "Hack the Planet" Hackathon.
